

IOS IKEv2 VPN Settings

To Set Up XMU VPN (IKEv2) Connection in IOS

1. Select "Setting" then click on "General"

2. Select "VPN" and choose "Add VPN Configuration"

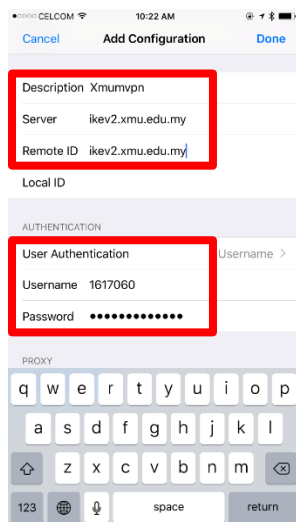

3. Enter below VPN setting.

Description for VPN Connection: Xmumvpn

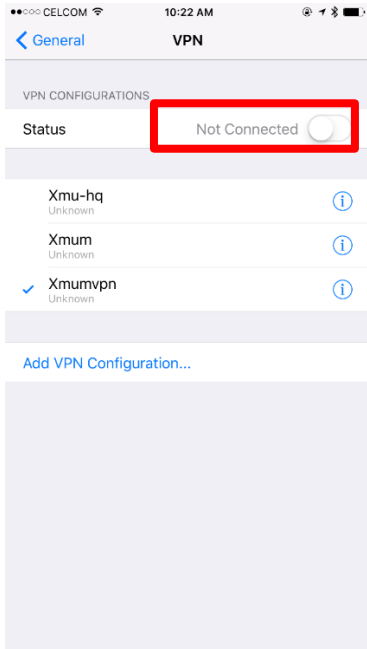

Server: ikev2.xmu.edu.my

Remote ID: ikev2.xmu.edu.my

Enter Username and Password (Campus ID and Password) for authentication.

4. Once setting done, change the VPN Status as Connected.

5. Once VPN status is connected, you will be able to connect to the Library E-Resources.
